

Reimagine Delivery Operations

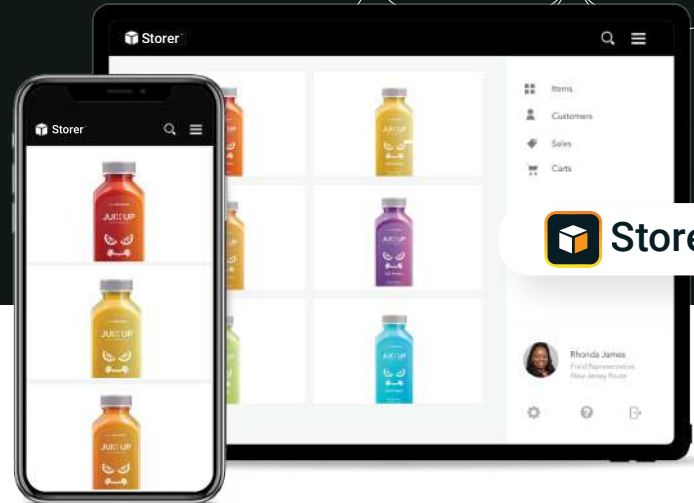

Redefine the Direct Store Delivery and Sales Experience

Storer™ is a mobile Direct Store Delivery solution designed to improve sellers and merchandisers operational efficiency and field team management.

Take the order management, inventory and delivery process anywhere on the go

Storer™ helps sellers to centralize, manage and monitor all critical delivery, order, inventory and product information in a single system on the go, while integrating with their ERP system.

Built for ORACLE NetSuite

Online and Offline Order and Delivery Management

Leverage the use of day to day technology

NetSuite ready-made integration

Improve and digitize the demand management and distribution process

Get real time visibility, monitoring and status over stock movements, loading and unloading operations and real time inventory state in trucks & warehouses.

Perform sales and delivery tasks simultaneously online and offline

By eliminating the need to be connected to a network, field staff can initiate an order, perform sales, or update stock, route or product replenishment information from any device, anytime, anywhere.

Current features:

- ✓ **NetSuite Integration:**
Prebuilt sync for items, customers, returns, and sales.
- ✓ **Offline Functionality:**
Works offline for master data and transactions.
- ✓ **Customer Delivery List:**
Prepares and tracks orders by customer for smooth drop-offs.
- ✓ **Real-Time Inventory & Sales:**
Manage stock, sales, and returns directly in the field.
- ✓ **Mobile Returns & Tracking:**
Customers can start and track returns anytime via mobile.
